## Domaine Laporte

Founded in 1850 in the village of Saint-Satur, Domaine Laporte was run until 1986 by René Laporte. A visionary chair of the Sancerre appellation for 20 years, René was a pioneer in producing low-yield, high-quality Sancerre during a time of over production. Henri Bourgeois purchased the Domaine from René, keeping the old vineyard, cellar and house and maintaining the excellent reputation. Domaine Laporte is one of the most highly respected estates in the Loire Valley. It holds more than 52 acres, and the flagship Sancerre comes from one of the finest vineyards in the appellation. Laporte is a certified organic producer and the wine here is made in a very traditional, natural way, employing organic methods and always ensuring a sense of purity and excellence.

### Le Rochoy Single Vineyard

Over several decades and without sparing their efforts, as the task was titanic, the two families have managed to constitute an exclusive single-vineyard called "Le Rochoy" which covers 8.5 hectares (21 acres) close to the village of Bannay. With its perfect south/southeast exposure, this hillside was once a Gallo-Roman quarry called "Rochetum". The subsoil, composed of clay and flint, gives its typicity to the wines thanks to its mineral tension, vibrant fruitiness and its long ageing potential. The flint stones that litter the ground accumulate heat during the day and restore it at night, which allows constant and well-regulated ripening over time, thus bringing consistency and concentration to the the grapes. At MacCormaics we carry two of the Rochoy wines.

#### Domaine Laporte 'Le Grand Rochoy'

Le Domaine du Rochoy is a 10-hectare slope, unique in the region of Sancerre. Soaking up the heat in the daytime, the flint rocks of the vineyard slowly cool in the night. Le " Grand Rochoy " is produced from the old vines of this prestigious slope which represents 2.5 ha

## Domaine Laporte

For several generations, Domaine Laporte has occupied a pioneering position and acquired a reputation for the quality of its wines. This notoriety is the fruit of the rigor, the determination, and the know-how of two passionate Sancerre families who have succeeded each other at its helm.

The property covers 21 hectares (52 acres) in the heart of the Sancerre appellation, planted with Sauvignon Blanc for the whites, and Pinot Noir for the reds and rosés. Each of the wines is vinified separately, expressing the type of soil on which the vines are grown: for instance "Le Rochoy", a monopoly vineyard on flint terroir or "La Comtesse", located on the Kim-meridgian marls of the famous hillside "Les Monts Damnés" in Chavignol. Since 1986, Domaine Laporte has been the property of the Bourgeois Family, a historic producer in Chavignol.

Every generation who has worked at the winery has brought its know-how, vintage after vintage. The historic plot by plot approach of the domain is a distinctive element that is at the origin of our extensive range and is a key element to the Laporte wines that can be found in many outstanding restaurants and wines shops in France and around the world. Led by a young and passionate team, our family estate is recognized today amongst the top producers in the appellation of Sancerre

### Bertani Valpolicella

The story of Bertani, one of the most important producers in the Veneto region, began in 1857 when two brothers, Giovan Battista and Gaetano Bertani, decided to settle in Quinto Di Valpantena, north of Verona, Italy. In 1958, Bertani became one of Italy's most famous names with the release of an iconic wine, Amarone.

## RIOJA Binario

### Binario Rioja Baja

The Binario label is run by sisters Ruth de Andrea (winemaker, who studied as a chemist at Sheffield University) and Ana de Andrea (manager) who work very closely selecting grapes and renting facilities with the Serrano family. Each Tempranillo vineyard is picked by hand at night to retain freshness. The grapes are destemmed into inox where it undergoes native fermentation (15% carbonic) for half a lunar cycle. Free run wine undergoes malolactic fermentation via a house pied du cuvee and is kept on fine lees for 5 months. Nothing is added except SO2 allowable within Demeter certified biodynamic guidelines.

The vines range from 20-40 years old and are cultivated using organic matter, both made from animal manure and pruned grapevine shoots, following all biodynamic principles and incorporating their homemade infusions and composts. These traditional farming practices help create nitrogen in the soils which lends for healthy regeneration and growth..

## SPANISH REGIONS

### Rías Baixas

#### Albariño

The Albariño grape has been grown in Galicia for centuries. Its origin is rather mysterious. Some believe that it is a cousin to Riesling from Germany's Mosel Region. This would have been brought to Galicia in the Middle Ages by monks making the pilgrimage to the Shrine of St. James in Santiago de Compostela. Others maintain that it is indigenous to the region, pointing out that just to the south in Portugal, some of that nation's finest white wines are made from the same grape, called Alvarinho. The Albariño grape loves the shallow and sandy soils of Galicia and at its best makes a remarkable floral wine with good acidity.

#### Vionta

Vionta Albariño is from vineyards in Villanova de Arousa in the Salnes Valley, the Northern and coolest subzone of Rias Baixis. Intense fruit aromas, some of them tropical, with green apple, banana and melon standing out. Initially soft on the palate, with a pleasing acidity, which develops into a harmony of fruit, dominated by peach. Long in the finish, highly aromatic, lightly bittersweet, a classic characteristic of the Albariño.

## Dirmstein

### Jesuitenhof

The Jesuitenhof Winery in Dirmstein is a family-run business with a long-standing tradition in viticulture, dating back to 1803. Today, it is managed by Moritz Schneider.

A particular highlight of the winery is the Jesuitenhofgarten, a small, 2.5-hectare single vineyard, which is entirely family-owned. This vineyard, surrounded by an old monastery wall, benefits from a unique microclimate, which, combined with the predominant clay soil, imparts a distinctive character to the Riesling grown there.

### Jesuitenhof

The 2023 Riesling Forster Jesuitengarten is beautifully flinty on the nose, quivering with fruity notions of tart yellow plum, passion fruit and Amalfi lemon, all wrapped in smoke. The palate adds even more passion fruit edges, lending tropical ripeness and aromatic tartness. The body is slender and streamlined but has verve, simply fizzing with energy. The 2023 is lasting, aromatic and resonant. (Bone-dry)

## ORR IRISH APPLE BRANDY

### Irish Apple Brandy

Created by a team in Co. Cork with a passion for authenticity, integrity and provenance, the elixir within this bottle is the new revelation of an Irish tradition dating back to the 17th century.

This Apple Brandy begins with the meticulous distillation of our finest ciders, before being entrusted to an extraordinary journey of maturation.

A marriage of four exceptional casks - Limousin oak, Oloroso Sherry, Burgundy red wine and Virgin French oak each imparts its own character, weaving together layers of depth, richness and finesse.

The result is an exquisitely complex brandy – one that lingers not only on the palate, but in the memory.

Founded in 2010 in Nohoval, County Cork, Stonewell Cider has earned its place among Ireland's most revered craft cider producers. Established by Daniel and Geraldine Emerson, the cidery was built on an uncompromising ambition: to create cider of exceptional character, rooted in Irish orchards and guided by time-honoured methods. Yet the pursuit of excellence did not end there.

Inspired by Geraldine's French lineage and Daniel's deep appreciation for the great Calvados houses of Normandy, the Emersons set their sights on a more ambitious expression of the apple. They envisioned a spirit that would honour both traditions the elegance of French apple brandy and the richness of Irish terroir while standing distinctly on its own.

That vision began to take form in 2020. Through the careful distillation of their finest, slow-fermented ciders, and with a steadfast commitment to craft, they laid down the first casks of what would become Orr Irish Apple Brandy. Matured patiently, guided by instinct and experience, the spirit reflects a rare pedigree one defined by provenance, precision, and time.

Now, after years of quiet maturation, Orr emerges.

A new chapter in Irish distilling refined, authentic, and unmistakably of its place.
